LEONG TIN JET

Internship Period - June 2024 to September 2024, Software Engineer

0164471661 | tinjet1016@gmail.com | Kuala Lumpur/ Miri (MY) | https://www.linkedin.com/in/tinjet/ | https://tinjet.vercel.app/

PROFESSIONAL SUMMARY

Results-driven Head of Technology with a proven track record in successfully launching complex projects within tight deadlines. Currently leading the technical team at a prominent academic society, instrumental in developing the website and content management system with Next.js. Experienced in mobile app development using Flutter, Bloc, and clean architecture, contributing to efficiency improvements at a diverse range of organizations. A fast learner and proactive problem-solver, I bring a diverse skill set and a passion for continuous improvement to drive success in challenging environments. Seeking opportunities to contribute my skills and enthusiasm for learning in a dynamic professional setting. Willing to learn new skills to adapt to the fast-paced environment .

EXPERIENCE

Head Of Technology, UNM Computer Science Society. Semenyih, Selangor
May. 2023 - Present

- Led the successful development and launch of the society's website (https://unmcss.com) and its associated dashboard (https://dashboard.unmcss.com) within a stringent 2-month timeline, incorporating a robust content management system built from scratch.
- Headed a team in implementing a Flutter mobile application following Clean Architecture principle and utilizing the BLoC pattern.
- Assists in society events planning and hosting

Flutter Application Developer, Telecell Marketing & Services. Miri, Sarawak
August 2023 - September 2023

- Conceptualize and develop tailored product designs aligned with company requirements and objectives
- Successfully reduced admin workload by 80% by eliminating the need for phone calls or messaging with the office admin for product price inquiries.
- Contributed to increased efficiency by providing real-time access to product price
